SuperEnduro Goes Live!

Two years ago **ABC Communication** and Red Bull Media House made history with the **Maxxis FIM SuperEnduro World Championship** by offering - for the first time ever - **live coverage** of the opening round in Gdansk, Poland. The film crew then reconvened with **ABC** for the Season Finale in France.

For 2017, **ABC Communication** are excited to broadcast the **entire season live!** **Alain & Bastien BLANCHARD**, together with **EnduroGP's** production company; **Vigneau & Co**, and its boss **Alex VIGNEAU** (who works on Live TV with Eurosport), have decided to offer **SEWC** fans a live show from each round lasting one and a half hours in addition to the usual 26 minutes highlights broadcasted four days after the event!

The **SEWC** coverage will be broadcast in Poland via the channel **NC +**, in USA, Canada and Mexico with **TEN Sports**, in Latin America through **Motorsport.TV** or also in France thanks to **SFR Sport**... Other channels will also be looking for a slice of the action from 10 December when the season starts in Poland in the beautiful city of Krakow. And there are hopes of setting up a **Live Stream** in order to allow the fans in countries without broadcasters to still be able to watch the show live...

Many fans have waited a long time to be able to follow **SuperEnduro live**, and finally their wish has come true! Showing all four Grand Prix of the 2017 season live is a great step forward for this growing sport, increasing the promotion and hopefully gaining new interest around the world...
